

## NALCAB's 2023 Congressional Advocacy Day | June 21 Washington, DC

NALCAB Members,

Please join us for NALCAB's Congressional Advocacy Day **June 21, 2023**, in **Washington, DC**. This is a day to meet with members of Congress and illustrate the important work we do in Latino communities across the US. On Advocacy Day we are face to face with the very people who decide the fate of funding and resources for programs that are vital to our communities.

Congress is currently working legislation that includes Fiscal Year 2024 funding levels for economic development programs such as:

- the Community Development Block Grant (CDBG),
- the Community Economic Development (CED) program,
- the US Department of Housing and Urban Development's (HUD) affordable housing programs,
- the CDFI Fund,
- the US Small Business Administration's Microloan Program and,
- additional funding streams critical to bolstering Latino communities and the organizations that support them.

Advocacy Day offers the opportunity to tell your story and demonstrate how federal funding enables your organization to drive economic development on a local and state level. This legislative event is open exclusively to NALCAB members. We will be providing briefing materials and training to all participants to fully prepare for congressional meetings. **Partial travel scholarships are available to help cover expenses. If you would like to request travel funding, please do so when you RSVP.**

RSVP [here](#) by April 28. And for any questions please email [policy@nalcab.org](mailto:policy@nalcab.org). We hope to see you on June 21!
